## ACCEPTABLE USE POLICY (AUP)

By using this mobile application provided by Saucon Technologies, the end user accepts the terms of this Acceptable Use Policy. Saucon Technologies will make all reasonable efforts to ensure that this application and related real-time global positioning service are available at all times. However, Saucon does not guarantee, represent, or warrant that access to this application and related real-time global positioning service will be uninterrupted or error-free. Saucon may change, suspend, or discontinue this application or related real-time global positioning service at any time. There could be limitations imposed on the use of or access to certain features or portions of this application if deemed necessary by Saucon Technologies. This may occur in any case without notice or liability.

As an end user of this mobile application, you agree to comply with the guidelines set forth in these Terms, and you acknowledge that Saucon Technologies has the right to enforce those guidelines as it deems appropriate in its sole discretion. It is expressly agreed that use of, or inability to use, this mobile application and related services is at your own risk. The information provided through this mobile application are provided “as available” for your use, without warranties of any kind, either express or implied, including title and non-infringement.

## Acceptable User Guidelines

- All rights including copyright, branding, or imaging related to this mobile application belong to Saucon Technologies.
- End users shall not modify, copy, or reproduce the contents of this application or related functionality without the written permission of Saucon Technologies.
- Saucon Technologies will strive to provide a reliable, stable mobile application and related service. However, the real-time data service may become unavailable at any time, and without notice. If this happens, Saucon will endeavor to restore the real-time data service as soon as possible.
- Security of the user's mobile device equipment and data is not the responsibility of the Saucon. It is the user's responsibility to safeguard against the risks of hacking, viruses, eavesdropping, and all other such hazards. Saucon is not liable for any kind of loss or damage whatsoever.
- The network response speed and method of operation differs depending upon the mobile device being used. Saucon is not responsible for hardware performance or responsiveness.
- To provide location-based services for this mobile application, Saucon may collect precise location data, including the real-time geographic location of your mobile device. This location data is collected anonymously in a form that does not personally identify you and is used by Saucon Technologies to provide accurate global positioning information for vehicles and services.
- Saucon is not responsible for any accidental or failure of communication of this mobile application during its use.
- The accuracy of the global positioning information for specific vehicles, stops, routes, or locations is ultimately the responsibility of the transportation service provider and is not the result of the effective use of this mobile application. Any discrepancy in predictive arrival times and actual vehicle arrivals is the responsibility of the transportation service and not Saucon Technologies.
